

FUTURE HANGERS

100% SUSTAINABLE

THE BEST SUSTAINABLE AND UNBREAKABLE HANGER

What?

We developed a fully sustainable, high quality, custom-made hanger made of Bonplast offering companies exactly what they need to complement their brand while serving the environment at the same time. This hanger will last a lifetime because it is unbreakable and in addition it is made of recycled material that is 100% recyclable.

Why?

Billions of hangers are only used once, they break far too quickly and break down. In the long term, it is more sustainable to invest in a hanger that never breaks. In this way it is a win-win for everyone. Better for the environment (no waste anymore) and cheaper for your company, because you only have to buy hangers once.

ONLY ADVANTAGES

- UNBREAKABLE (IN CONTRAST TO PLASTIC HANGERS)
- LIGHTWEIGHT
- 100% RECYCLABLE
- MADE OF RECYCLABLE MATERIAL
- CUSTOM MADE OPTIONS
- ALL COLOURS ARE POSSIBLE
- NO WASTE ANYMORE
- MADE OF 100% BONPLAST (NO MIX)
- IN CONTRAST TO WOODEN HANGERS, WE PRESERVE OUR TREES
- POSSIBILITY TO HAVE MUCH THICKER HANGERS WHICH ENSURES A NICE PRESENTATION OF THE CLOTHES

MATERIAL

THANKS TO THE STRONG MATERIAL,
NO OTHER MATERIAL CAN COMPETE WITH IT.

The hanger is made of 100% Bonplast which has nothing but advantages. Bonplast is a thermoplast that has the following characteristics:

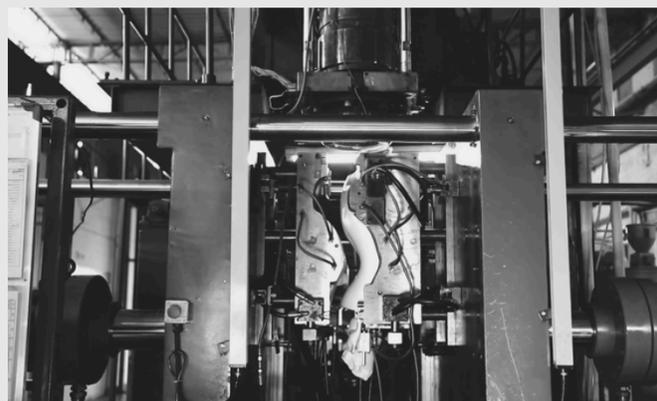

- Very strong, even unbreakable
- Lightweight
- 100% recyclable
- Can be finished without painting or painted in every colour you like

CUSTOMISED

Do you have your own design? Are you looking for a hanger fully customised for your brand? We are happy to listen to what you are looking for. Contact us for more information.
